

Measure Theory and Linear Spaces

Bibliography – Measure Theory

1. Patrick Billingsley, *Probability and Measure*, 3rd Edition
2. H. L. Royden, *Real Analysis*, 3rd Edition
3. Marek Capinski and Ekkehard Kopp, *Measure, Integral and Probability*
4. Robert Gardner Bartle, *The Elements of Integration and Lebesgue Measure*
5. Heinz König, *Measure and Integration: An Advanced Course in Basic Procedures and Applications*
6. Robert B. Ash and Catherine A. Doléans-Dade, *Probability and Measure Theory*
7. J. C. Taylor, *An Introduction to Measure and Probability*
8. Joseph Doob, *Measure Theory*
9. Charles W. Swartz, *Measure, Integration and Function Spaces*
10. Frank Burk, *Lebesgue Measure and Integration: An Introduction*
11. Ole A. Nielsen, *Introduction to Integration and Measure Theory*
12. Alan J. Weir, *Lebesgue Integration and Measure*
13. Paul R. Halmos, *Measure Theory*

Bibliography – Linear Spaces

1. Dennis Bosq, *Linear Processes in Function Spaces: Theory and Applications*
2. Robert E. Megginson, *An Introduction to Banach Space Theory*
3. Lokenath Debnath, Piotr Mikusinski, *Introduction to Hilbert Spaces with Applications*
4. R. E. Edwards, *Functional Analysis: Theory and Applications*
